

Solutions Engineer

Solutions engineer with 7 years of experience as a Technical Account Manager at Texas Instruments, leading technical discovery and customer integration. Winner of TI's top 5% sales award. Then spent 6 years as founder of aiSports, deploying production TypeScript, React, and Solidity to run our daily fantasy sports contests.

Professional Experience

aiSports - Crypto powered Fantasy Sports | CEO & Founder

08/2020 - 08/2026

- Built an onchain Daily Fantasy Sports platform - averaged 2,000 monthly active users, launched 5,000 NFTs, created a token, and deployed smart contract-based prize pools. Live for 4 NBA seasons.
- Launched and maintained stablecoin buy-in, escrow, and automated payout flows end to end.
- Built the React frontend and Firebase backend to run daily contests. Scheduled jobs pulled stats and sent updates over REST APIs.
- Utilized SQL in BigQuery to aggregate sports data. Used the output to build an AI pipeline on Google Cloud Platform (GCP) for NBA player projections.
- Won 4 hackathons and multiple ecosystem grants; maintained relationships with each chain partner.

Texas Instruments | Technical Account Manager | SF Bay Area, CA

08/2011 – 04/2013, 01/2014 – 06/2019

- Grew account revenue from \$1.5M (2014) to \$38.5M (2018) by working alongside customer engineering teams from architecture selection through production launch.
- Awarded Texas Instruments High Five Winners Circle - top 5% of US sales performers.
- Presented TI components to customer engineering teams and provided support through their product lifecycle.
- Accurately forecasted quarterly TI revenue for multiple large enterprise customers.

Theranos, Inc. | Global Supply Manager | Palo Alto, CA

04/2013 - 12/2013

- Oversaw supply chain and inventory of over 500 components across 30 circuit boards and 3 end products.
- Created and maintained an organizational tool for component tracking, forecasting, vendor share, and availability.

Scouture, Inc. | Management Consultant

08/2019 - 11/2022

- Ran day-to-day operations, including city tours for relocating Gap Inc. job candidates.
- Built the Scouture website and automated business processes on Google Sheets.

Skills

Code & APIs: TypeScript · JavaScript · Node.js · React · Firebase (Firestore, Functions, Authentication, Analytics) · Google Cloud Platform (BigQuery, Storage, Vertex AI) · REST APIs · Express.js · SQL

Onchain: Solidity (EVM) · Cadence (Flow) · Smart contract design (Escrow, Payment, NFT, Stablecoin)

Customer-facing: Account Management · Technical Onboarding · Product Demos · Full Product Lifecycle Support

Education

University of Texas at Austin | B.S. in Electrical and Computer Engineering

08/2007 - 05/2011

- Technical Areas: Computer Engineering - Embedded Systems, Sales Engineering
